

PRIVACY POLICY OF GREYWIZARD.COM

PERSONAL DATA

1. Administrator of personal data is Grey Wizard spółka z ograniczoną odpowiedzialnością, with its registered office in Poznań, Poland, address: ul. Macieja Palacza 113, 60-273 Poznań, Poland, KRS no.: 0000512326, Taxpayer Identification Number (NIP) 7831663209, Statistics Identification Number (REGON) 367311885, hereinafter referred to as "the Administrator", providing internet services under domain name: <https://greywizard.com/>, hereinafter referred to as "the Service".
2. We process only those personal data which are voluntarily provided by Users of our Service, that is: email address, IP addresses of Users internet services, Service login data.
3. Personal data are processed only in order to execute the agreement and for marketing purposes of the Administrator; Users will be sent commercial information on their email only if they submit a separate permission.
4. Users have the right to look into their personal data, demand their correction and removal.
5. Personal data are processed in line with provisions of the Act of August 29, 1997 on protection of personal data (Journal of Laws of 2016, item 922 with later changes).
6. We accumulate information on IP addresses of devices that connect with <https://www.greywizard.com>. Information gathered this way is used for analysis and verification of the Service's operation. Based on these data visitor statistics are prepared.
7. Information on IP numbers is also used for technical purposes.

COOKIES

8. The entity that places cookies on Users' end devices and acquires access to them is Grey Wizard spółka z ograniczoną odpowiedzialnością, with its registered office in Poznań, Poland, address: ul. Macieja Palacza 113, 60-273 Poznań, Poland, KRS no.: 0000512326, Taxpayer Identification Number (NIP) 7831663209, Statistics Identification Number (REGON) 367311885.
9. We do not collect automatically any data, except for information included in cookies.
10. Some areas of our Service use cookies – text files that are placed on Users' devices, identifying them in a way that is essential to use some of the Service's functionalities. Cookies usually contain name of the website they come from, time of their storage on end device and unique number. Visiting the Service without changing browser settings

regarding cookies mean that they will be placed on devices of visitors. Anybody who uses the Service in any way can change browser settings regarding cookies at any point, blocking placement of these files on their devices.

11. Cookies are used in order to:
 - 1) adjust the content of our Service's website to Users' preferences,
 - 2) optimize usage of our Service's website through, among other things, recognition of User's device and personalization of the Service's website on their device,
 - 3) develop statistics that are helpful in understanding the way Users use our Service, which allows us to keep improving the structure and content of the Service's website.
12. Within the Service website we use two basic types of cookies: session and persistent cookies. Session cookies are temporary files which are stored in the memory of User's end device until they leave the Service's website or close the software (internet browser). Persistent cookies are stored on User's end device for a period of time that is specified in cookies' parameters. Users can remove cookies from their devices at any moment.
13. The cookies we use are divided into the following types:
 - 1) ones that enable usage of services that are available in the Service, e.g. to authorize cookies used for services that require authorization in the Service's website;
 - 2) ones that serve for assuring security, for instance to detect misuses within authorization in the Service's website;
 - 3) ones that enable collection of information on the way the Service's website is used;
 - 4) ones that enable saving of settings selected by User and personalization of interface in terms of e.g. language or regional settings;
 - 5) ones that enable provision of advertising content to Users that corresponds to their interests.
14. The most popular browsers that are used to browse the internet, enable saving cookies on end devices by default. However, every user can change these settings so that the browser automatically blocks saving of cookies or informs about an attempt to save cookies on a device. Information on cookies' management is available in browser settings.
15. We hereby inform that blocking or restricting of saving cookies may affect operation of some functionalities of the Service.
16. Cookies saved on Users' devices can be used by our advertisers or business partners.
